Info on the Advanced Class

NOTE: I am still working out the details of the advanced class, so bear with me. Skip this day for now.

This is the class for those of you who have taken Project 52 PRO once or more and want to take it to a deeper level, more based in building a powerful portfolio than in the weekly assignments.

You know who you are.

First, the weekly assignments are always there as an option for you. If you want to do one of them, or all of them... that is fine with me. But for those of you who want a different experience, this advanced group will be here for you in a custom designed form.

1. You will have access to me for marketing, advertising, bidding help and more.
2. We will be working on your individual portfolios, with an eye toward either hero shots or stories.
3. Personal Projects. Want to create something and then do something with it? Then let's get you working on a personal project with an overall plan for what to do with that project when it is completed.
4. Marketing materials. I hope each of the advanced members develop a good set of marketing tools, whether post card or booklet or website development.

I will be talking with each of you on the group calls and that lets the entire group benefit from what we discuss.

Yeah, this is gonna be epic. The archives will be indexed as well for better retrieval of info.

So get ready for a slam-bang adventure folks, it is gonna rock!
